Dear Sir/Madam,

Fourth International Conference on Soft Computing in Data Science 2018 (SCDS2018) which will be held in Chulalongkorn University, Bangkok, Thailand from 15-16 August 2018. The theme of the conference is 'Science in Analytics: Harnessing Data and Simplifying Solutions'. SCDS2018 have invited renowned international and local keynote speakers who are academia or practitioners to share their knowledge and experience in the area in the applications of soft computing in various disciplines. This conference aims to provide a platform for researchers and practitioners to share their research work and to create rigorous international research collaborations.

SCDS2018 targets participants from universities, government agencies and industries with the ultimate aim of bridging the gap between academia and the industry. Research collaborations between the academia and industry can lead to the advancement of useful analytics and computing applications for providing real time insights and solutions.

All accepted conference papers will be published in the proceedings by Springer, CCIS series.

The SCDS2015, SCDS2016 and SCDS2017 proceedings were published in the Communications in Computer and Information Science series which is abstracted (indexed) by DBLP, EI, Scopus and were submitted for the inclusion in ISI Proceedings.

Authors of accepted papers to SCDS2018 will be invited to extend their papers for:

a book chapter in upcoming volume entitled Supervised and Unsupervised Learning for Data Science, to be published by Springer, or

Fast Track Submission to Applied Soft Computing, Elsevier. (IF=3.541)

Submission to Malaysian Journal of Computing (<http://mjoc.uitm.edu.my>)

For further details, please refer to the attachment.
