About i-Inova 2015

The Exposition on Islamic Innovation (i-Inova) is a series of successful expos that began in 2010. It is a competitive exhibition designed to introduce innovative products from higher learning institutions and research institutes locally and abroad.

The Objectives

The objectives of this competition are to:

- Introduce innovation in the creation of Islamic products.
- Increase awareness amongst individuals on consumer rights and the importance of Islamic products.
- Provide a platform for USIM to showcase as the 'Centre of Reference for Islamic Science Products' in line with USIM's objectives, vision and mission.
- Encourage creativity and innovation among researchers and students in contributing to the development of ummah.

Programme Outcome

i-Inova provides participants the opportunity to explore, manipulate, and intertwine theories and practice for creating innovations that can be commercialized globally.
