

INCIDENT HANDLING & RESPONSE

Date : 27th -28th August 2014

Venue : Knowledge Worker Development Centre, Cyberjaya

Fee : RM 1,700, Early Bird : RM 1,360 (before 28th July 2014)

Contain
Respond
Secure.

Training Modules:

Module 1: Introduction to Incident Handling

Module 2: Response to Web Based Attack (Hands-On Module)

Module 3: Response to Malware Attack (Hands-On Module)

Module 4: CERT Roles in Internal Pentesting

****Highly interactive program with 80% lab / hands-on and 20% theory****

Upcoming Courses

Network Security	19-21/8/2014	RM 2,100
Penetration Testing	9-11/9/2014	RM 2,300
Secure Programming	22-24/9/2014	RM 2,400
Mobile Security	23-25/9/2014	RM 2,500
Digital Forensic	14-16/10/2014	RM 2,500
WebApplicationSecurity	15-16/10/2014	RM 1,600

PENETRATION TESTING & ETHICAL HACKING

Break The Security

9 – 11 SEPTEMBER 2014

Knowledge Worker Development Centre, Cyberjaya.

9:00AM – 5:00PM

Course Objective

To be able to performed Penetration Testing on a regular basis to ensure more consistent IT and network security management by revealing how newly discovered threats or emerging vulnerabilities may potentially be assailed by attackers.

Benefit of Attending this Course

- Determining the feasibility of a particular set of attack vectors.
- Identifying higher-risk vulnerabilities that result from a combination of lower-risk vulnerabilities exploited in a particular sequence.
- Identifying vulnerabilities that may be difficult or impossible to detect with automated network or application vulnerability scanning software.
- Assessing the magnitude of potential business and operational impacts of successful attacks.
- Testing the ability of network defenders to successfully detect and respond to the attacks.

Target Audience

Penetration Testing Consultant, Security Analyst/Consultant, Security Architect, Chief Information Security Officer, Security Auditor, IT Manager, Network administrators, Firewall Administrators, System Administrators and Risk Assessment professionals.

Course Content

- Module 1:

Introduction to Penetration Testing
- Module 2:

Information Intelligence Techniques
- Module 3:

Scanning with Nmap
- Module 4:

Vulnerability Scanning
- Module 5:

Exploitation
- Module 6:

Social Engineering Toolkit
- Module 7:

Sniffing and Cracking Techniques
- Module 8:

Web Exploitation
- Module 9:

Wireless Hacking

NOTE: Detailed course outline will be emailed upon request.

Methodology

Highly interactive program with 80% lab / hands-on and 20% theory.

Investment

Early Bird: RM 1,840.00 per pax (Before 11 August 2014)
Standard Rate: RM 2,300.00 per pax

- ❖ Group Discount of 5% for two participants from the same organization.
- ❖ Group Discount of 10% for three or more participants from the same organization.
- ❖ Fees include all Training Materials, Certificates, Lunch and Tea breaks

To register for this training, kindly contact our consultant below :
