

22 September 2017

Dear Sir/ Madam

Master of Science Program in Information and Technology Management (MSc ITM)
The Chinese University of Hong Kong

Greetings from the Chinese University of Hong Kong! This is Sean Zhou, Program Director of Master of Science Program in Information and Technology Management (MSc ITM). I am writing to introduce our full-time taught Master program offered by CUHK Business School.

CUHK Business School has launched the Master of Science Program in Information and Technology Management since 1998 to support career development of IT Professionals in the knowledge-based global economy. The program aims to equip graduates with the advanced technical and managerial skills needed to pursue successful careers in today's competitive market. Our unique curriculum enables students to explore myriad topics in Strategic Information Systems, Cloud Computing and Storage, Network Security, Business Analysis, IT Laws etc., and is suitable for those with either engineering or business background who would like to pursue IT management skill.

The program creates opportunities for students to learn outside the classroom and broaden their horizons. For example, students can gain working experience in Hong Kong via the elective course "Advanced Information Systems Practicum," where the students are required to complete a real-world information systems project in collaboration with a company. Enclosed please find the program pamphlet and poster for details.

We encourage high-caliber candidates fulfilling the admission requirements to apply early for scholarships, applications are assessed based on the information submitted online. The admission scholarships amount is ranged from HK\$10,000 to HK\$100,000 for each recipient. Students graduated from the program are permitted to stay in Hong Kong for one extra year through Immigration Arrangements for Non-local Graduates (IANG) scheme, and they are allowed to take up employment in Hong Kong during this period.

Our Program is now accepting application for coming Fall 2018, interested students can submit online application via (<http://www.gs.cuhk.edu.hk/page/ApplicationforAdmission>). I appreciate if you could post the enclosed poster on the notice board of your school; and relay the pamphlet to any potential candidate. Should you have any enquiry, please contact our Program Office at (852) 3943-3797/3943-8567 or through dsemisc@cuhk.edu.hk. Thank you for your kind attention.

Sincerely

Zhou Xiang, Sean (Ph.D.)
