ADVANCES IN PLANT BIOCHEMISTRY AND BIOTECHNOLOGY *"Empowering Urban Agriculture"*

9th-10th December 2014

Faculty of Biotechnology
Biomolecular Sciences
Universiti Putra Malaysia

Organized by

INTRODUCTION

The Department of Biochemistry, Faculty of Biotechnology & Biomolecular Sciences, Universiti Putra Malaysia (UPM) together with National Institute Biotechnology Malaysia (NIBM) is organizing the 'Advances in Plant Biochemistry and Biotechnology 2014 (APBB 2014)' conference in December. The theme of this conference 'Plant Biochemistry and Biotechnology: Empowering Urban Agriculture' is timely chosen due to the increasing interest in urban farming.

The APBB 2014 conference aims to provide a platform for biochemists, biotechnologist, nutritionist, food technologists, authorized bodies and industrialists to interact and discuss new research findings in various fields of plant biochemistry and biotechnology. The conference will in particular highlight interest in topics pertaining to promote people living in urban areas to be interested in producing food for home consumption. Urban agriculture could generate income, promotes human interaction, improves environmental quality and provides an avenue for recycling waste towards sustainable community.
